**Subject:** Bill 45; Kapa'a valley zone change

Chair of the City Council, Ernest Y. Martin

I, Mark Librie, am writing this letter in support of the expansion of Kapa'a I, LLC industrial park. My reason for this support is to keep Kailua and Windward side residence working close to home. With this, we will have less rush hour traffic going over the artery's which connect the Windward side to town. As a concerned citizen, I see less fossil fuel consumption, and it allows us to regain the time spent in congested traffic with our families.

The land in question has been reclaimed from the old Kailua Landfill and junk car dump that used to be there.

The King family has been, and in my opinion, and will be in the future, great stewards of our Aina. I have known them as landlords and as close family friends, and they have always done what is "Pono" for our community.

Mahalo for your consideration in this matter.
